Bath Shower Mixer
with Hand Shower Set

Model: KEF-14709

Exquisite Collection
Wall-Mounted Single Lever Bath Shower Mixer
with Hand Shower Set

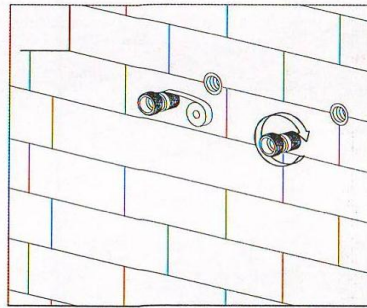

Model: KEF-14709

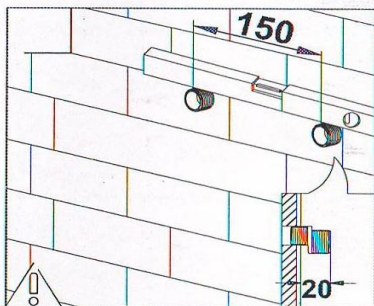

Step 1

Fill the gap between the wall and the outlet hole with silicone. Turn on the valve and allow the water to run freely for 5 minutes. Then turn off the valve.

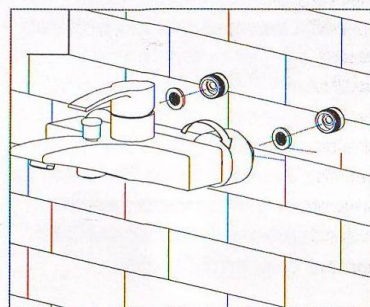

Step 2

Wrap the bended connector with Teflon tapes. Then screw it into the outlet hole.

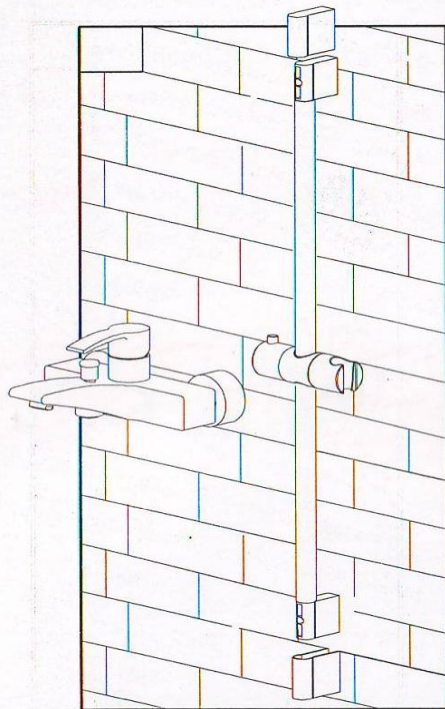

Step 3

Adjust the position of the two bended connectors to be horizontal, and make sure the center distance to be 150mm.

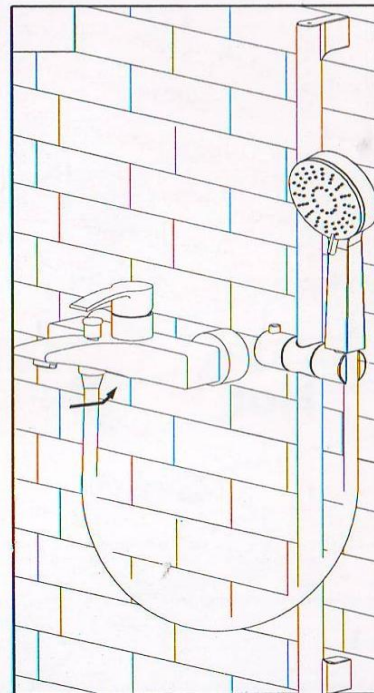

Step 4

4. Put the washer onto the bended connector. Lock the fixing nut to tight the mixer body. Push the flange to the wall in the right position.

Step 5

Take off the cover from the two ends of the slide rail, put the slide rail in the proper position, mark the position of the two ends fixing point on the wall (please use a level to make the slide rail be vertical). Drill a $\Phi 6$ hole on the signed point, knock the plastic anchor bolt into the $\Phi 6$ hole. Pass the screw through the fixing hole of the slide rail and screw it into the plastic anchor bolt to be tightened. Install the two cover in the two ends finally.

Step 6

Screw one end of the hose to the mixer body, another end to the hand shower, then place the hand shower on the bracket.

Help Line

If you need additional assistance at any time during the installation, please call us at: **1.800.775.0703** or email us at: **info@kraususa.com**

Our customer service hours are **Monday - Friday, 9am - 6pm EST.**
